PRESIDENT'S MESSAGE

The Academy continues to assume leadership in all aspects of dentistry in Toronto.

One of the main areas of concern is the growing number of patient complaints, real or imaginary. The Academy attempts to mediate all complaints with the assistance of the Mediations Chairmen of the four local societies. Most of these complaints are resolved before reaching the R.C.D.S. For this, the Academy owes a debt of gratitude to our Mediations Chairman, Dr. Gilbert Chapnick.

The Academy Emergency Service continues to operate successfully. Our Emergency Service helps the public when emergency treatment is needed. This, in turn, enables young graduates to build up their practices, as the majority of dental emergency patients do not have regular dentists of their own. We always need new recruits for this service, and I urge all new graduates to phone the Academy office for more information. This year, we have an emergency listing in the Bell Telephone Yellow Pages, making our service more readily accessible to the general public.

There is much talk about the future of solo dental practices in Toronto and other large cities. This concern is intensified by the introduction of large dental facilities in department stores, open a maximum of six days and nights. Dental commercial advertising, which already exists in some areas of the United States, may be another troubling aspect of these facilities, in the future of the individual practitioner. However, I feel, that with continuing, strong, supportive membership in the Ontario Dental Association, professionalism will prevail to safeguard individual practices.

The following program is scheduled for the coming year:

Thursday, November 27, 1980	– 43rd Annual Winter Clinic
Friday, February 6, 1981	– First Stated Meeting Dr. Stanley Malamed, University of Southern California “Local Anaesthesia – Update & Dental Emergencies”
Wednesday, March 4, 1981	– Curling Bonspiel – Thornhill Country Club
Wednesday, March 18, 1981	– Second Stated Meeting – Base Borden
Friday, June 19, 1981	– Academy Golf Tournament - Board of Trade Country Club

I would like to thank the Academy executive for volunteering many hours in the interest of all Academy members.

LEN SHAPIRA, D.D.S.

UNITED WAY REPORT

The United Way Campaign for this year was again quite successful. Although the Professional Division fell short of its goal, revenues were up from last year. The Dental Division again held its own, although there were still many dentists who contributed nothing.

For next year let us all give our enthusiastic support to the new chairman and put the Dental Division over the top.

MEDIATIONS COMMITTEE REPORT

This Committee has been very active in the past year. The members of the Mediations Committee, which represents the four dental societies in Metro Toronto, investigated over 100 written complaints which were lodged against members of the Academy of Dentistry. The reasons given by patients are many and include:

1. Charges made for broken appointments
2. Unsatisfactory dental treatment
3. Excessive fees
4. Misunderstandings between patient and dentist
5. Problems with insurance companies

Besides the formal complaints received in writing, there were an additional 50 requests received on the telephone seeking assistance in solving problems between patients and dentists. These calls were resolved by the Academy staff consisting of Mrs. DeZorzi and Mrs. Wagman.

Because of the complexity of several of the complaints, it was necessary to refer these cases to the R.C.D.S. for resolution. There were situations in which patients had initiated litigation against dentists and our Committee cooperated with the lawyers and dentists involved.

The R.C.D.S. recently issued a memorandum to the dental profession, outlining the procedures to be followed should a written complaint be received against a dentist. It is imperative that these instructions be followed in order that complete protection be obtained from the Insurance Company carrying our Malpractice Insurance Policy.

The Mediations Committee hopes that there will be fewer complaints in the future and suggests that in our daily practice of dentistry we bear in mind the familiar saying, "Do unto others as you would have others do unto you".

It has been my privilege to act as chairman, and I wish to thank Dr. G. Weisberg, Dr. B. Hood, Dr. E.D. Jones, Dr. F. Wine and their committees for their valued assistance.
